

Pair o' Phrase

Group Size: 24 or more

Est. Time: 15 minutes

Materials Cost: none

The purpose of the exercise is to get student to meet someone new and interact with each other. Works well at the beginning of a session or after a break.

Precut the phrase sheet with one word per card. Give a card to each student. Make sure the cards are mixed up before passing them out. At the start, students must introduce themselves to someone else and see if their card is a match with the other. If not they move on. It is over when all pairs have been found. Word of caution: make sure you have an even number or you end up with a student walking around aimlessly. This may mean you have to participate.
